

CABANAS | CARPORTS | LOUVERED & FIXED ROOF PERGOLAS

R-BLADE

Bioclimatic Louvered Pergola

Deliver the experiences your customers crave while boosting your ROI.

Weather-Proof Your Facility

Optimize space and maximize revenue all in one go without sacrificing quality and comfort.

With automatic adjustable louvers, climate control capabilities, and durable aluminum materials, our timeless pergolas make the hottest place in town also the coolest, come rain or shine.

Create Profitable Amenities

Drive long-term revenue growth by creating beautiful spaces designed intentionally for al-fresco dining, relaxation, socializing, and safekeeping.

From interactive driving suites to luxury carports, cabanas, and playing courts, the opportunity to enhance guest experience and guarantee longevity is limited not by space, but by mere imagination.

Recruit & Retain More Guests

Enjoy significant returns year after year from satisfied guests proud to claim your restaurant, hotel, bar or club as their respite and retreat.

And since restaurants, hotels, bars or clubs with luxury outdoor amenities are five times more likely to convert prospective guests than competitors who don't, it pays big to take the inside outdoors.

Life Is Better Outside

Azenco is an innovative leader in the bioclimatic pergola market. We use our 25 years of experience and 30 patents to create products that make life better outdoors for our customers and their guests. Every day we're applying new insights and the latest technology to continue driving our work forward.

Let's create the outdoor life of your dreams together.
